

AES_CBC_decrypt_buffer

AES_CBC_encrypt_buffer

XorWithIv

```
graph LR; A[AES_CBC_decrypt_buffer] --> D[XorWithIv]; B[AES_CBC_encrypt_buffer] --> D;
```

The diagram illustrates a data flow where two separate buffers, 'AES_CBC_decrypt_buffer' and 'AES_CBC_encrypt_buffer', are both fed into a single processing block labeled 'XorWithIv'. Two blue arrows originate from the right side of each buffer box and converge on the left side of the 'XorWithIv' box, which is shaded gray.
